Nominees for the Coburg Prize for Contemporary Glass 2022

The Veste Coburg art collections will award the fifth edition of the Coburg Prize for Contemporary Glass in 2022, the most important event for contemporary glass in Europe. At the same time, the UN has declared 2022 the International Year of Glass. The participants for the Coburg Prize for Contemporary Glass, which was last held in 2014, have now been selected.

Around 400 artists from all over the world send their application to take part in The Coburg Prize for Contemporary Glass 2022. In total, the seven-member jury examined over 700 objects for the accompanying exhibition and, in a multi-stage process, selected around 100 works by 89 artists.

These will be exhibited from April 10th to September 25th 2022 at the Veste Coburg and in the European Museum for Modern Glass in Rödental. The winners will be announced on April 9th 2022. The Coburg Prize for Contemporary Glass 2022 will present a Europe-wide overview of current trends and developments in contemporary glass art. The range of techniques used and the artistic design is wide, as is the variety of artistic statements. Many works are dedicated to socially relevant issues or address sustainability and climate change.
